## E L Ő S Z Ó

Ezzel a füzetrel újabb részlete jelenik meg a "Vocabularium abbreviaturarum bibliothecarii" c. munkának. Ez a füzet egyrészt a közegészségügyi és közművelődési intézmények, másrészt a jótékonyági intézetek és szervezetek, illetve olyan társadalmi egyesületek névrövidítéseit tartalmazza, amelyek jellegük alapján gyűjteményes munkánk egyéb füzetéibe nem voltak beilleszthetők. A tételek száma nem sokkal marad el a 20 000-től.

Mostani jegyzésünk is többéves gyűjtő- és feldolgozó-munka eredménye, - összeállításához elsősorban a nemzeti és nemzetközi rövidítésgyűjteményeket, valamint a kőponti periodikajegyzékeket és a mammutkönyvtárak nyomtatott katalógusait használtuk fel, de sokat meritettünk különböző speciális összeállításokból, sőt monográfiákból is. Gyűjtésünkben a megjelölt tárgykörben teljességre törekedtünk s mintegy 30 nyelv rövidítéseit vettük figyelembe. Könyvtári és dokumentációs célkitűzésünkől kifolyóan gyűjtésünk nemcsak ma élő rövidítéseket tartalmaz, hanem a múltba is visszanyulik, bár ilyen vonatkozásban teljességre nem törekszik.

A feldolgozás rendszere: az egyes rövidítéseket követi a feloldás, utána - amennyiben megállapítható volt - az illető testület székhelyének, esetleg országának megnevezése, majd annak a nyelvnek egy-két betűvel rövidített jelzése, amelyből a rövidítés származik. A székhelyül szolgáló, gyakran előforduló városok jelölésére szintén betűrövidítéseket alkalmaztunk. A latinbetűs rövidítések feloldásánál az egyöntetűség érdekében mi is követtük a nemzetközi rövidítés-gyűjtemények azon gyakorlatát, hogy a partikulák kivételével minden szót nagy kezdőbetűvel írunk. Ha ugyanazon testületnek több sziglája is van, úgy a feloldást csak egyszer adjuk s a változatok mindegyikénél egyenlőségi jellel utalunk az alapalakra. Ha ugyanazon testületnek több nyelven van hivatalosan használt rövidítése, úgy a változatokról a különböző nyelvű rövidítések teljes feloldása mellett utalunk a főalakra. Ha egy rövidítés változó alakkal ugyan, de azonos betűértékkel /pl. csupa nagybetűvel, illetve részben kisbetűkkel stb./ is előfordul a gyakorlatban, a különböző formai változatok feltüntetésétől eltekintettünk.

Az egész anyagot két - latin és cirill - betűrendben

hozzuk. Minthogy könyvünk elsősorban magyar használók részére készült, a latinbetűs ábécében a magyar nyelv sajátosságainak megfelelően az ö és ü betű külön csoportban következik az o , illetve az u után. Ugy véljük, ez a betűrendi eltérés nem fogja zavarni a külföldi használókat. Az un. diakritikus jeleket a betűrendi beosztásban nem vettük figyelembe. A cirillbetűs betűrendben természetesen önálló csoportban szerepelnek az ukrán "i" és a szerb "j" betűvel kezdődő rövidítések.

Minthogy kénytelenek voltunk lemondani arról, hogy ugyanazon rövidítéseket több füzetünkbe is felvegyük, gyűjteményünk használóit arra kérjük, hogy a keresett tételnek szükség esetén a többi, rokontárgyu füzeteinkben is szíveskedjenek utánanézni.

Reméljük, hogy újabb szerény füzetünkkel - hiányosságai és hibái mellett is - használható segédeszközt adhattunk az érdeklődők kezébe.

## ПРЕДИСЛОВИЕ

Настоящая брошюра является новой частью работы "Vocabularium abbreviaturarum bibliothecarii". Эта брошюра содержит сокращения санитарных, общеобразовательных, а также благотворительных институтов и организаций, т.е. тех общественных объединений, которых по своему характеру нельзя было включить в другие брошюры сборника. Число названий приблизительно 20000.

Настоящий сборник — результат многолетней собирательной и обрабатывающей работы. К его созданию мы использовали многочисленные национальные и международные сборники сокращений, периодические издания и печатные каталоги больших библиотек, но мы много черпали и из разных специальных сборников и даже монографий. В составлении мы стремились — в данной сфере — к полноте и обработали сокращения 30 разных языков. Из наших библиотечных и документационных целей вытекает, что наша книга содержит не только живые сокращения но затрагивает и прошлое, хотя такого рода сбор не так систематичен.

Что касается метода обработки материала: после отдельных сокращений следует их расшифровка, затем — в случае если была возможность это установить — указание местонахождения, возможно и страны, после чего указание одной-двумя буквами того языка, с которого сделан перевод.

Для указания тех городов местонахождения, которых встречаем более часто, мы тоже использовали одну-две буквы. При обработке сокращений в интересе однородности мы следовали практике международных сборников сокращений, при которой в части, составленной латинским шрифтом, за исключением несложняемых частей речи мы писали все слова с заглавной буквой. Если одна и та же организация имеет несколько сокращений с различными буквенными обозначениями, то полную расшифровку мы даем только для одной формы, а в отношении вариантов знаком равенства указали на место происхождения. Если у тех же организаций сокращение имеется на нескольких языках, то полной расшифровке вариантов даем и главную форму. Если кое-либо сокращение применяется на практике в различной форме но с теми же буквами /напр. полностью заглавными буквами или частично с незаглавными/мы вынуждены были в нашем сборнике отказать от приведения вариантов различных форм.

Весь материал мы разместили в двух отдельных алфавитных порядках. Так как наша книга предназначена главным образом для венгров, то мы в латинском шрифте сохранили венгер-

скую специфику т.е. буквы "ö" и "u" следуют после "o" и "u" в качестве самостоятельных букв. Думаем, что эта алфавитная специфика не причинит затруднения иностранным ученым. Так называемые диакритические знаки мы не учли в алфавитном порядке. В русском тексте, само собой разумеется, отдельно фигурируют сокращения, начинающиеся с украинского "i" и сербского "j".

Мы были вынуждены отказаться от применения однозначных сокращений во все книги и поэтому просим специалистов пользующихся нашим трудом посмотреть искаемую и в других книгах нашего "Vocabularium".

Мы надеемся, что наша скромная книга, несмотря на ее недочеты, окажется полезным способом для интересующихся.

This fascicle forms an additional part of the work entitled: "Vocabularium abbreviaturarum bibliothecarii". It contains the abbreviations of the names of cultural and public health organizations and of charitable associations and finally the abbreviations of the names of those organizations, which could not be inserted thematically into other fascicles of our work. The items of the actual fascicle run almost to 20000.

This book is the result of many years' collecting and processing work. In compiling it we used first of all the national and international collections of abbreviations of periodicals and printed catalogues of the largest libraries, but we also made use of different special publications and monographs. In collecting the material we aimed at completeness concerning the subject matter in question and we took into account the abbreviations of some 30 languages. Our work being destined for use of librarians and as a documentation, we had to look for material also from the past, though this part of our compilation could not be as systematic as that of the living material.

As regards the method of treatment of the processing material the abbreviations are followed by full names and wherever it was practicable, the residence or country of the institution and the letter symbol of the language the abbreviation comes from. Frequently occurring names of towns of residence are abbreviated too. In agreement with the practice of international dictionaries of abbreviations, in writing out sigla of Roman characters, with the exception of particles the initials of every word were printed in capital letters. For several different abbreviations of the same institutions the full title has been given only once and at the variants a sign of equality points to the place where the full name is found. For abbreviations composed of the same letters but used in various forms /fully capitalized or partly with lowercase letters/ we had to give up the insertion of all variants.

The whole material is given in two alphabetical orders, Romanic and Cyrillic. Since our book is mainly for use of Hungariar specialists we have followed the characteristics

of the Hungarian language, consequently the letters ö and ü have been treated as independent letters in the Romanic alphabet after o and u. We suppose that this peculiarity of the alphabetic order won't disturb the foreign users of this book. Diacritics have not been taken into consideration in the alphabetic order. In the Cyrillic alphabet abbreviations beginning by an Ukrainian "i" or a Serbian "j" naturally form separate groups.

Since we could not list the same abbreviations in every section of our vocabulary we ask our readers to consult also the fascicles of related fields in case of necessity.

We do hope that the present modest work - in spite of its shortcomings - will provide some assistance for its users.

Dieses Heft bildet einen neuen Teil des Werkes: "Vocabularium abbreviaturarum bibliothecarii". Es enthält Abkürzungsformen der Namen teils von Institutionen des öffentlichen Gesundheitswesens bzw. der öffentlichen Bildung, teils von Wohltätigkeitsinstitutionen bzw. von solchen gesellschaftlichen Vereinen, deren Namenabkürzungen in kein anderes Heft unseres Werkes eingefügt werden konnten. Die Zahl der Stichwörter dieses Heftes beträgt fast 20 000

Vorliegendes Verzeichnis ist ebenfalls das Ergebnis einer mehrjährigen Sammelarbeit und eines Bearbeitungsprozesses. Bei der Zusammenstellung haben wir erstens die heimischen und internationalen Abkürzungsverzeichnisse wie auch die gedruckten Kataloge der Riesenbibliotheken verwendet; wir haben aber auch vieles aus den speziellen Zusammenstellungen ja sogar Monographien entnommen. Das Hauptziel unserer Sammlung war die Vollständigkeit im entsprechenden Gebiet und wir haben die Abkürzungen von ungefähr 30 Sprachen berücksichtigt.

Unser Buch greift - den bibliothekarischen und dokumentarischen Zielsetzungen folgend - neben den sogenannten kurrenten Abkürzungen auch auf die Vergangenheit zurück, obwohl unsere Sammlung in dieser Hinsicht nicht so systematisch sein konnte, wie die auf das lebende Material bezügliche.

Was die Bearbeitungsmethode anbelangt, möchte ich bemerken, dass den einzelnen Abkürzungen die Auflösungen folgen und - insofern dies festzustellen war - die Benennung des Sitzes des betreffenden Gebietes evtl. Landes, ferner das Schriftzeichen jener Sprache, aus der die Abkürzung stammt. Die als Residenz dienenden, öfter vorkommenden Städte werden ebenfalls durch Buchstabenabbreviationen gekennzeichnet. Bei der Bearbeitung der Siegel haben wir im Interesse der Gleichförmigkeit die bei den internationalen Abkürzungssammlungen angewandte Praxis geübt, demgemäss wird - mit Ausnahme der Partikeln - jedes Wort mit grossem Anfangsbuchstaben geschrieben. Sollte diese Körperschaft über mehrere Abkürzungen von variablem Charakter verfügen, so wurde die Auflösung nur für eine Form angegeben und bei den Varianten mittels Gleichheitszeichen auf jene Stelle hingewiesen, wo die ganze Auflösung zu finden ist.

Falls eine Abkürzung in einer veränderlichen Form, jedoch mit identischen Buchstaben /z.B. mit lauter grossen od. teils auch mit kleinen Buchstaben/ vorkommt, mussten wir bei unserer Sammlung von den verschiedenen Variationen der Form Abstand nehmen.

Das ganze Material haben wir in zwei, in eine lateinische und kyrillische alphabetische Einteilung geordnet. Da unser Buch in erster Linie ungarischen Fachleuten dient, haben wir im lateinischen Alphabet die ungarischen Eigentümlichkeiten behalten und zwar die Buchstaben ö und ü bilden eine selbständige Gruppe nach o bzw. u. Unserer Meinung nach wird diese Eigentümlichkeit den Gebrauch des Heftes für Ausländer nicht erschweren. Die sogenannten diakritischen Zeichen liessen wir bei der alphabetischen Einteilung unbeachtet. Natürlich wurden im kyrillischen Alphabet die mit dem ukrainischen "i" und dem serbischen "j" beginnenden Abkürzungen gesondert aufgeführt.

Da wir dieselben Abkürzungen nicht in ein jedes Heft aufnehmen können, müssen wir die Benützer unseres Verzeichnisses bitten um - wenn notwendig - auch in den übrigen themenverwandten Heften nachzuprüfen.

Wir möchten hoffen, dass dieses Heft - wenn auch nicht ganz vollkommen - als ein brauchbares Hilfsmittel dienen wird.

Le présent volume constitue une nouvelle partie de l'ouvrage intitulé: "Vocabularium abbreviaturarum bibliothecarii" qui comprend les abréviations des organisations d'hygiène publique et d'éducation nationale, ainsi que celles des associations philanthropiques et des associations, qui ne pouvaient être insérées dans les parties déjà publiées de notre ouvrage. Le nombre des abréviations publiées dans ce volume est d'environ 20000.

Ce répertoire est l'aboutissement d'un travail de collectionnement et de dépouillement poursuivi pendant plusieurs années. Pour sa mise au point nous avons utilisé en premier lieu les dictionnaires d'abréviations nationaux et internationaux, les listes centrales des périodiques et les catalogues imprimés des grandes bibliothèques, mais nous avons également puisé à différents inventaires spéciaux et même à des monographies. Prétendant à la totalité dans le domaine indiqué, nous avons tenu compte des abréviations d'environ 30 langues. Conformément au but que nous nous sommes proposés, et qui est de fournir un ouvrage utile aux bibliothèques et à la documentation, notre répertoire ne contient pas seulement les abréviations vivantes, mais il embrasse aussi le passé, sans bien entendu prétendre à la totalité sous ce rapport.

En ce qui concerne le dépouillement nous avons procédé de la façon suivante: chaque abréviation est suivie de son explication et - pour autant qu'il ait pu être établi - par l'indication du siège, éventuellement du pays de l'organisme, finalement nous avons signalé par une ou deux lettres la langue dans laquelle l'abréviation a été faite. Les noms de ville servant de siège aux organismes et qui figurent fréquemment dans le répertoire, ont été également indiqués par une ou deux lettres. Dans l'explication des abréviations en caractères latins, nous avons - en vue de l'uniformité - suivi l'usage des recueils internationaux en écrivant chaque mot avec une majuscule à l'exception des particules. Si le même organisme a plusieurs sigles, nous ne donnons l'explication qu'une fois, tandis qu'ailleurs nous renvoyons, au moyen d'un signe d'égalité, à la forme originale. Si un et même organisme a un nom abrégé officiellement employé dans

plusieurs langues, nous renvoyons lors de l'explication des abréviations en différentes langues à la forme principale. Pour les abréviations qui se rencontrent dans la pratique sous des formes différentes, mais avec la même valeur des caractères /par ex. uniquement avec des majuscules ou en partie avec des minuscules/, nous avons dû renoncer à consigner les variantes.

L'ensemble de la matière est présenté selon deux alphabets, latin et cyrilliques. L'ouvrage étant destiné en premier lieu aux lecteurs hongrois, nous avons conservé dans l'alphabet latin les particularités de l'orthographe hongroise, en ce sens que les lettres ö et ü forment des groupes à part succédant à o et u. Nous supposons que ce détail n'est pas susceptible d'incommoder les lecteurs étrangers. Les signes diacritiques n'ont pas été observés dans l'ordre alphabétique, par contre, dans l'alphabet en caractères cyrilliques, les abréviations commençant par un "i" ukrainien et un "j" serbe forment des groupes séparés.

Vu que nous étions dans l'impossibilité d'insérer la même abréviation dans plusieurs volumes, nous prions le lecteur de rechercher l'abréviation en question dans nos autres volumes.

Nous espérons que cette modeste publication - malgré ses lacunes et ses imperfections - s'avérera un utile instrument de travail.
